*In today's higher education landscape, college and university leaders may well consider principles of brand management to assure their positions vis-à-vis their competitors. Although considerable differences between higher education and product brands exist, there are sufficient similarities to warrant a foray into issues of brand management. Higher education leaders may derive guidance to manage effectively what may be the most important intangible asset a college or university owns—its long-term image and bundle of core meaning. In this paper we discuss issues related to brand management and strategies for re-branding in higher education, with a case study at "1 Decembrie 1918" University of Alba Iulia.*
